History: This message has been forwarded.

Hi folks.

Some additional updates to provide since Friday afternoon's Triangle Lake Study JIC Public Information branch team call...

- 1) ODF – Forestry's staff for the Thursday meeting will be "Link" Smith, acting District Forester for ODF's Western Lane District and Peter Daugherty, acting Private Forests Division chief for ODF. Both persons are immensely familiar with the study project, the local area and the recent history of the herbicides issue in western Lane County between the activist group and ODF.
- 2) Everyone who is meeting in Veneta at 1pm Thursday should meet at the Lane Fire District #1 Station, 88050 Territorial Hwy - about a block away from the ODF District office. ODF's meeting rooms are in use that day.
- 3) The people resources from ODF are not available for a suggested Friday morning tour. Some time exists on Thursday afternoon and ODF staff are available for a brief road tour before mobilizing at the Triangle Grange.
- 4) The Western Lane District is not in a position to provide refreshments for the public meeting.
